Troops Have Been Sent from Peking to Quell the Outbreak.

Serious Troubles Reported in the Chinese Imperial Palace.

Japanese Perhaps Intend to Raid the Arsenal at Kirin.

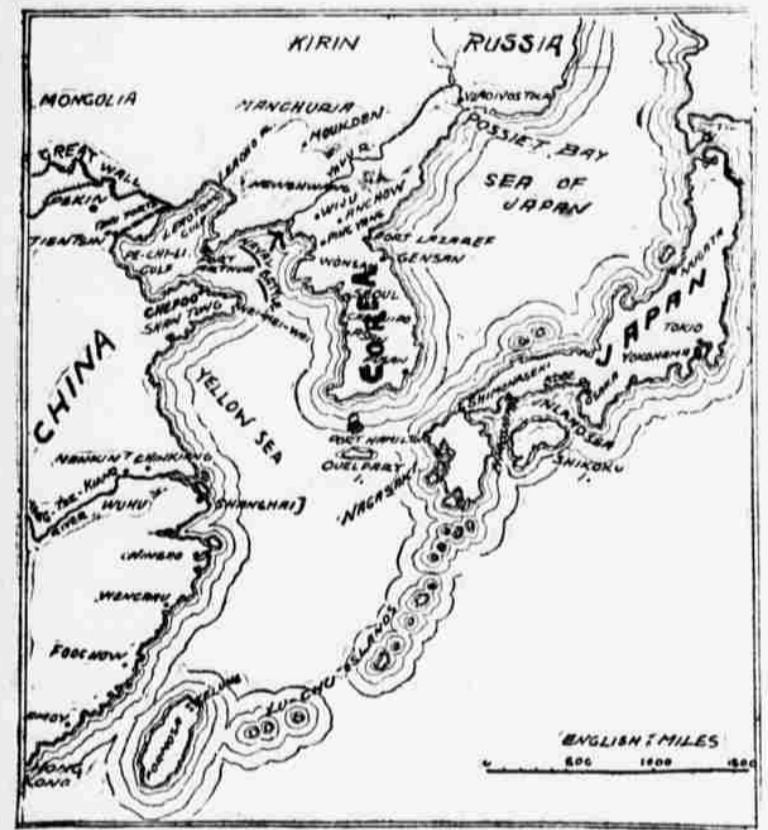

(By Associated Press.)  
TIEN-TSIN, Oct. 5.—Reports have reached here that a rebellion has broken

gards the Korean war as a forerunner of a great Anglo-Russian collision, which the conflicting interests of those powers are certain sooner or later to bring about.

PARIS, Oct. 5.—The Gaulois, commenting on the British Cabinet Council held yesterday, asks if British intervention in the Korean trouble might not constitute a repetition of the famous coup of 1875, which enabled Admiral Lord John Hay to take possession of the island of Cyprus.

Figaro, referring to the same subject, remarks: "The British effort to land in China would not be able to resist the desire to exercise pressure upon the Chinese in order to prevent them from deriving all the advantages of victory. The troubles may then commence and the peace of Europe will be threatened, for Russia, France and even America will certainly intervene."

"EVENING WORLD'S" WAR MAP.

"The World's" special correspondent in the East, in a letter printed this morning, describes for the first time the actual movement of the Japanese army in Korea. The main body landed at Asan, on the south coast, and, driving the Chinese before it, marched to within sight of Peking. The chief fortified city and ancient capital of Korea, where the Chinese army was stationed, was taken down and waited two weeks, seemingly in sheer indifference, but really in preparation of a carefully laid general plan of war. The Japanese army, which landed at Asan, was far away on the northern coast, and was marching over the mountains to head of the Chinese army, which it met at the point of the peninsula. out in the province of Mongolia. Troops from Peking have been sent to quell the uprising.

Serious troubles are said to have arisen within the palace at Peking. No details have reached here as yet.

A number of Europeans from the outlying districts are fleeing here.

The residents of Tien-Tsin are taking every precaution possible against an anticipated attack on the part of the natives.

LONDON, Oct. 5.—Mr. Allen, formerly British Consul at New-Chwang, writes to The Times, stating that Lanchow, where the Japanese are reported to have landed, is unquestionably Hun-chun, near the frontier of Korea and Russia. Mr. Allen suggests that the Japanese will attempt a march against the Arsenal of Kirin, 200 miles distant.

SHANGHAI, Oct. 5.—The Chinese merchants are cancelling freight contracts to Chefoo and Tien-Tsin, owing to a report that the Japanese intend to blockade those ports.

Several Japanese warships are patrolling the coast near Wei-Hai-Wei, the Chinese war port on the Shan-Tung promontory. They approach the coast at night and steam seaward again at day-break.

It is said that the object of these movements is to prevent Chinese warships from leaving Wei-Hai-Wei or Port Arthur, on the opposite side of the Yellow Sea.

It is stated here that the Japanese do not intend to interfere with the export of coal to China.

Mongolia is an immense province of Northwestern China, taking its name from the Mongols, or Tartars, who have inhabited it since the earliest ages, and who, in the centuries before the Christian era, repeatedly threatened the destruction of the Chinese Empire. It was, in fact, against the Mongols that the great wall was erected on the then Chinese boundary in the year 221 B.C. The Mongols are wandering tribesmen, whose chief source of wealth lies in their live stock, and whose nomadic life is spent in the wide open fields of the world between the Yellow Sea and Mongolia.

AFTER THE WAR SCARE.

Talk of Anglo-Russian Troubles—The British in China.

(By Associated Press.)  
LONDON, Oct. 5.—The Daily News, in a leading article, quoting John Russell Young's statement in reference to the Korean war, says: "The Cabinet had naturally to discuss the proposals to take in the emergency of a Japanese rush over Chinese ports, such as Mr. Young anticipated. We are far from anticipating Russian interference in the quarrel, but the possibility has to be considered, and it was probably taken account of at yesterday's council."

The News also says that Sir William Harcourt was not summoned back to London at all. On the contrary, he received a telegram to the effect that he need not come to the council. The Ministers, The News adds, will forthwith return to their holiday haunts. It also says that the customary arrangements are being made for a further prorogation of Parliament.

The Manchester Guardian is informed that Russia and Great Britain have definitely decided that the settlement of the war must be an international and not a Japanese affair. Germany and France are said to have acquiesced to this decision, while the policy of the United States is still regarded as uncertain.

## RECEIVER ASKED FOR.

Coffin & Stanton, Bankers, to Dissolve Partnership.

The Assets and Liabilities Both Estimated at \$3,600,000.

Lawyer Newman Erb to Take Charge of Their Affairs.

United States Circuit Court Judge La-

comber to-day appointed Newman Erb, of 21 East Seventy-fourth street, receiver of the banking firm of Coffin & Stanton, of 72 Broadway.

Mr. Erb has not yet been served with notification of his appointment, and up to noon had not assumed charge of the assets of the firm. Coffin & Stanton, however, and his sureties will be the Lawyers' Surety Company, of 32 Liberty street.

The assets of the bank are \$3,600,000 and the liabilities are said to be about the same.

The firm is composed of William E. Coffin and Walter Stanton, and is one of the oldest and best known banking houses in the city.

Mr. Stanton made application for the receivership yesterday afternoon. He asked for a dissolution of the partnership, and also that an accounting be made of all the partnership dealings between the two partners, and further, that W. E. Coffin be adjudged to pay the complainant what, if anything, shall appear on the taking of the accounts, approved by him; the availing being at all times ready to pay the respondent whatever may be declared due him.

Mr. Erb was seen at noon to-day. He said he expected to see Coffin & Stanton at 72 Broadway, at any moment, to deliver the books of the firm to him. He would take charge of the firm's affairs. He stated that he was asked last night by the partners if he would accept the receivership, and that he consented.

Coffin & Stanton, he said, had been in business about ten years. They dealt in municipal, water and railway bonds and other securities, to the extent of millions. They carried and floated the bonds of many Western cities. Differences had recently arisen between the partners and they had agreed to dissolve their partnership.

This step, Mr. Erb declares, has no semblance of an assignment, a concern in sound and one of the other partners will continue the business.

## FOR WEAK WOMEN.

A Discovery of Priceless Value.

What Gives One Woman Advantage Over Another?

How to Be Master of Yourself and Look Your Best.

Shakespeare says: "He looks at scars that never felt a wound."

How often it happens that weak, nervous, suffering women are the subjects of ridicule by friends, who, being well themselves, cannot understand such feelings in others. Yet there is no more terrible suffering than that resulting from nervousness, and it is the most prevalent of all complaints.

The most frightful tortures haunt the mind; the person is in constant dread of impending evil, sleep refuses to come, and the most common worry and anxiety. Thoughts of insanity develop, and the poor sufferer feels weak, tired and unable to do anything. There are sometimes fainting attacks at the stomach, loss of appetite, coated tongue and lack of interest in society and daily affairs. Female weakness, with pains in the side, back or abdomen, are often present. Miss Nettie Richards, of Livermore Falls, Maine, says:

"For two years I had hysterics, and was fearfully nervous. I would have them every day, and was in a terrible condition. My limbs were cold all the time. I could not sleep eight or ten hours at a time. I was in a frightful state, and I was very weak."

"I could not walk but what it put me out of breath. I tried medicines and doctors, but they did me no good. One day a friend wished me to try Dr. Greene's Nervura blood and nerve remedy."

"After taking three bottles of this wonderful medicine I was in perfect health. I think it a splendid medicine and would advise everybody to try it."

To look well and feel well you want strong nerves and good blood. They are quickly, surely and permanently made by Dr. Greene's Nervura blood and nerve remedy. It is doing wonderful work for nervous and chronic diseases. It will cure you also. You need just such a remedy.

It is the discovery of Dr. Greene, of 35 West 14th St., New York City, the most successful specialist in curing nervous and chronic diseases. You can consult him free, personally or by letter.

MRS. SEIGEL'S PLAINT.

She Seeks Absolute Divorce on Statutory Grounds.

Joseph Seigel, who is said to be a man of large means and well known about town, was arrested to-day on an order issued by Justice Lawrence, of the Supreme Court, in an action brought by his wife for an absolute divorce.

Seigel's bail was fixed at \$200.

In her application Mrs. Seigel alleges that for the last five years Seigel has not contributed to the support of herself or their two children, that he is a man of large means, and that he is now living with a woman named Minnie Title, and that the latter has horses and carriages, and that his wife, in subject poverty with her children, at 36 Broome street.

She claims that when she made a demand upon her husband for the support of herself and children, he said that she was being foolish to do with her, and that if she began an action for divorce, he would leave the jurisdiction of the State.
